### ABOUT ME

Dynamic Full Stack Web Developer with three years at Codoffer Infotech PVT Ltd., specializing in mobile app development and RESTful API integration. Proven track record in delivering high-performance applications and optimizing deployment processes. Adept at collaborating in teams while ensuring code quality and user satisfaction. Passionate about leveraging cloud services for scalable solutions.

### EDUCATION

#### MASTER OF SCIENCE – COMPUTER SCIENCE

Vardhman Mahavir Open University, Kota

#### BACHELOR OF SCIENCE – INFORMATION & TECHNOLOGY

Jai Naray Vyas University, Jodhpur

March 2022

### SKILL

- Mobile app development
- Backend development
- NodeJS
- IONIC
- HONOJS
- DBMS / RDBMS
- Frontend development
- RESTful API integration
- Laravel
- Angular
- CF Workers
- CI/ CD

### WORK EXPERIENCE

#### Codoffer Info Tech PVT Ltd. – Full Stack Developer

OCT 2022 – NOW

As a Full Stack Developer with three years of hands-on experience, I have worked across the entire web and mobile development stack, delivering robust and scalable applications.

##### Mobile APP Development

- Developed cross-platform mobile applications using **Ionic Framework**.
- Integrated RESTful APIs for seamless communication between the frontend and backend.
- Focused on creating responsive, user-friendly, and high-performance mobile interfaces.

##### Frontend Development

- Built dynamic and scalable frontend applications using **Angular**.
- Proficient in managing state using **NgRx** and **BehaviorSubjects**.
- Ensured smooth UX with reusable components, optimized change detection, and modular architecture.

##### Backend Development

- Developed secure and high-performing APIs using **Laravel**, **Node.js**, and **HonoJS**.
- Used **Laravel Sanctum** for authentication and token management.
- Implemented **Cloudflare Workers** for serverless backend logic, enhancing global performance and reducing latency.
- Ensured code quality and maintainability with best practices and testing tools like **Postman**, **Laravel Telescope**, and custom-written tests.

##### DevOps & Deployment

- Implemented automated CI/CD pipelines using **Codemagic** for mobile app builds and deployments.
- Streamlined testing, building, and publishing processes to both App Store and Play Store.
- Managed environment configurations and deployment on platforms like **Vercel**, **Render.com**, **Hostinger**, and **HostGator**.

#### Yantram Studio – Web Developer

APR 2022 – OCT 2023

- Designed and developed responsive websites optimized for mobile and desktop platforms.
- Established hosting for each website and completed go-live process by uploading sites to host account.
- Tested cross-browser compatibility for websites and applications in Chrome, Firefox, Safari, Opera and Internet Explorer.
